

Appendix C. Species of uncertain status at Fort Laramie National Historic Site

Scientific Name	Source	Comments
ALLIUM CERNUUM	OLMSTED AND PEREZ	Probable in southern BLM tract
ARISTIDA PURPUREA VAR LONGISETA	Collected by Davis from FOLA; voucher at UW-Dept NRR	Unsure if collection site habitat persists
ARTEMISIA ABSINTHIUM	Obs by BH	Check in pasture south of storage area
ASTRAGALUS CRASSICARPUS VAR CRASSICARPUS	Reported by Davis (1959)	
BECKMANNIA SYZIGACHNE	Reported by Davis (1959)	
CAREX BREVIOR	PREDICTED	No observations; seems likely
CAREX FOENA	Reported by Davis (1959)	An immature specimen of Carex praegracilis is included among vouchered specimens. These two species are very similar, and both may be present
CAREX STIPATA	PREDICTED	No observations; seems likely
CHENOPODIUM ALBUM	Reported by Davis (1959)	
DALEA AUREA	Collected by BH; uncertain determination based on material with no fruits	Flower or fruit and BLM boundaries need verification
DALEA CYLINDRICEPS	Collected by Davis from FOLA; voucher at UW-Dept NRR	Unsure if collection site habitat persists
DALEA PURPUREA	OLMSTED AND PEREZ	Also on list of species planted in 2003
DESCURAINIA INCANA VAR INCANA	Collected by BH; uncertain determination based on immature material	Check on terrace slope north of entry station
ELLISIA NYCTELEA	Reported by Davis (1959)	
ELYMUS LANCEOLATUS	Seed mix list	On list of species planted in 2003
HIPPURIS VULGARIS	Obs by BH	River oxbow
LESQUERELLA ARENOSA VAR ARENOSA	Collected by BH; has traits of both L. ludoviciana and L. arenosa	Specimen at FOLA
LEUCOCRINUM MONTANUM	Reported by Davis (1959)	
LITHOSPERMUM MULTIFLORUM	Reported by Davis (1959)	
PEDIOCACTUS SIMPSONII	Reported by Davis (1959)	Possibly a misid of Coryphantha?
PENSTEMON ERIANTHERUS	Obs by RD, BH	Northern BLM tract
PHYSALIS VIRGINIANA	Reported by Davis (1959)	(Listed as P. lanceolata Michx.)
PLANTAGO PURSHII	Reported by Davis (1959)	
POPULUS ALBA	Uncertain observation BH	Fort grounds
SPARTINA GRACILIS	Reported by Davis (1959)	
UNDET. PLANTED - A CHERRY?	Collected by BH in vegetative condition	Specimen at FOLA
